You have the option of whether or not to have your Event Catered. Please keep in mind that that catered events will need more tables, due to some glitters being poisonous you can't eat at the same tables you paint at. If you decide you want a Catered Event your quote will also include the

price of the food, beverages, plates, cups, utensils, and food table covers. You will have the option to omit some of this if you wish to use your own. We will need to discuss your Catering Preferences to ensure we have food allergies and food preferences covered.
